APPRENTICESHIP SCHEME

SUMMARY

We currently have exciting Apprenticeship opportunities in three areas within our Operations team, Engineering, Process Operations and Industrialisation all based at our Hillhouse site in Thornton-Cleveleys, Lancashire.

JOB ROLE

All of these Apprenticeships are four year programmes, with the first year being delivered at Springfields, near Preston.

The Apprenticeship Framework delivered is the same regardless of the area of employment, this is **Level 3 Maintenance and Operations Engineering Technician**. Specific information regarding the qualification can be found [here](#).

Engineering – responsible for the maintenance of the Manufacturing Plant and site equipment.

Process Operations/Industrialisation – responsible for the manufacturing of Victrex product.

REQUIREMENTS

Educated to a minimum of 5 GCSEs at Grade 4/C or above, to include Maths, English and Science, or have progressed to A Level in similar subjects.

Victrex recruits only a select number of apprentices each year which enables us to provide individual, tailored, high level support to you as you begin your career. We are committed to working closely with you to ensure that you can reach your full potential.

▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please complete the Apprenticeship application form [here](#). (No Agencies)

ABOUT VICTREX

Victrex is an innovative world leader in high-performance polymer solutions, focussed on the strategic markets of automotive, aerospace, energy (including manufacturing & engineering), electronics and medical. Every day, millions of people use products and applications, which contain our materials – from smartphones, aeroplanes and cars to oil and gas operations and medical devices. With over 35 years' experience, we develop world leading solutions in PEEK- and PAEK-based polymers and selected semi-finished and finished parts which shape future performance for our customers and our markets, and drive value for our shareholders.
