

CLOSING DATE
9 May 2019

QUALITY ASSURANCE OFFICER

SUMMARY

To play a key role in the team designing, implementing and embedding a Quality Management Systems to IATF16949:2016 standards.

JOB ROLE

Reporting to the QA Manager you will liaise closely with all levels of staff in Victrex Polymer Solutions to drive operational excellence using Quality Management Systems focused on the design, manufacture and sale of high performance polyketones.

You will be a key part of a team working across the company to design, implement and embed processes and procedures which allow Victrex to successfully transition to an IATF16949:2016 certified QMS and operation.

The successful candidate will influence all functions within Victrex drive adoption of the standard, continual improvement and customer focus.

REQUIREMENTS

A qualified and experienced IATF16949 lead auditor with automotive manufacturing experience.

Experience of handling complex data using statistical techniques and a high level of computer literacy are essential requirements. The successful candidate must be able to influence others and work independently with integrity.

A scientific degree and experience of ERP systems and introducing IATF16949:2016 quality management systems into a manufacturing environment would be advantageous.

▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to:
