WAREHOUSE MANAGER

SUMMARY

We are seeking to appoint an established Warehouse Manager to join and lead our multifunctional warehouse team.

This role is based at our Hillhouse site in Thornton- Cleveleys.

JOB ROLE

The successful candidate will have significant experience in leading a busy warehouse team in an international business. By utilising cross-functional continuous improvement techniques you will have responsibility for the safe, efficient and effective leadership of all warehouse activities and the development of the team in a time of change.

REQUIREMENTS

The successful candidate will have demonstrable in-depth experience of leading multiple warehouse activities whilst ensuring the safe, efficient and economical utilisation for storing and distributing materials against demanding internal (Production) and external (Customer) requirements.

You will have previously led large scale projects from conception through to implementation, demonstrating proactive cross-functional engagement with multiple key stakeholders.

It is essential that you operate to the highest standards with regards to safety, housekeeping, people development and efficiency and be able to work collaboratively within the wider business environment.

▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to:

HR@victrex.com. (No Agencies)

ABOUT VICTREX

Victrex is an innovative world leader in high-performance polymer solutions, focussed on the strategic markets of automotive, aerospace, energy (including manufacturing & engineering), electronics and medical. Every day, millions of people use products and applications, which contain our materials – from smartphones, aeroplanes and cars to oil and gas operations and medical devices. With over 35 years' experience, we develop world leading solutions in PEEK- and PAEK-based polymers and selected semi-finished and finished parts which shape future performance for our customers and our markets, and drive value for our shareholders.
