

**CLOSING DATE**

# QA MANAGER

## STONEHOUSE, GLOUCESTERSHIRE

### SUMMARY

**Are you ready for a challenge in a dynamic working environment?**

The QA Manager will be accountable for the maintenance and development of a robust Quality Management System, ensuring that it is implemented and embedded across the site. A focus on continuous improvement is a must and the successful candidate will bring with them knowledge and experience in the use of modern QM tools.

### JOB ROLE

Reporting to the Plant Manager, the successful candidate will also be responsible for the execution and reporting of site audits in compliance with the required ISO standards, planning and implementing remedial actions as required. The role holder will influence the senior management team and functions across site and the wider business to drive process quality improvements ensuring operational effectiveness.

### REQUIREMENTS

Working as part of a dedicated team you will be educated to degree level in either a science or engineering discipline, you will have proven demonstrated experience of continuous improvement, quality systems, methods and their application in accordance with international and regulatory standards along with knowledge and experience of the auditing processes. Candidates must have experience of ISO and equivalent standards in regulated industries, process excellent communication and reporting skills and have proven problem solving abilities.

**Victrex values diversity and encourages applications from all sections of the community.**

### ▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to: [HR@victrex.com](mailto:HR@victrex.com). (No Agencies) By applying for this role, you give consent for your CV to be distributed internally within Victrex for the purposes of assessing your application.

### ABOUT VICTREX
