## IT SECURITY OPERATIONS MANAGER

### SUMMARY

We are seeking to appoint an IT Security Operations Manager to join an innovative and dynamic IT Team supporting an international business based in Thornton Cleveleys with offices in Japan, USA, Asia and Germany

### JOB ROLE

In this new role for Victrex, you will have a fantastic opportunity to shape and influence the IT Security Strategy and vision. You'll be keeping the organization aware of potential security threats, and work with stakeholders to minimize the impact. You will have the remit to drive the adoption of new tools, techniques and technologies, working positively with stakeholders across the organization.

As the organization subject matter expert on security threat assessment, you will direct threat monitoring, modelling and the completion of threat management.

### REQUIREMENTS

With professional membership of CISSP, you have demonstrable experience of working in an IT security role in a global 24/7 company. With strong leadership skills, you will have the ability to work collaboratively to build a best in class security operations function. You are an excellent communicator and influencer with detailed knowledge that enables you to engage effectively with technical and non technical audiences. Technically, you will be fully versed with best of breed SOC tooling.

### ▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to: [HR@victrex.com](mailto:HR@victrex.com). (Strictly No Agencies, Previous applicants need not apply)

### ABOUT VICTREX

Victrex is an innovative world leader in high-performance polymer solutions, focussed on the strategic markets of automotive, aerospace, energy (including manufacturing & engineering), electronics and medical. Every day, millions of people use products and applications, which contain our materials – from smartphones, aeroplanes and cars to oil and gas operations and medical devices. With over 35 years' experience, we develop world leading solutions in PEEK- and PAEK-based polymers and selected semi-finished and finished parts which shape future performance for our customers and our markets, and drive value for our shareholders.
