PROJECT MANAGER

SUMMARY

As Project Manager you will be responsible for the delivery of business critical Innovation Projects requiring the need for professional project management through all stages from concept to completion.

JOB ROLE

This role works across all Victrex Business Units, with accountability for the overall delivery of assigned projects to cost, quality, timescales and with a successful completion.

The role holder will be responsible for defining and implementing the project strategy, as well as identifying and managing risks and issues, changes to the plan and key milestones.

REQUIREMENTS

The successful candidate will have a proven track record of successfully managing projects in a complex environment. A professional Project Manager qualification would be desirable but not essential.

Effective written and verbal communication skills, with excellent leadership and influencing ability, are critical in this role. Strengths in conceptual and analytical thinking are essential. The successful candidate will have the confidence, tenacity and ability to drive through the project schedule and deliver expertise across the business as well as supporting the continuing evolution of the Project Management Office.

▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to:

HR@victrex.com. (No Agencies)

ABOUT VICTREX

Victrex is an innovative world leader in high-performance polymer solutions, focussed on the strategic markets of automotive, aerospace, energy (including manufacturing & engineering), electronics and medical. Every day, millions of people use products and applications, which contain our materials – from smartphones, aeroplanes and cars to oil and gas operations and medical devices. With over 35 years' experience, we develop world leading solutions in PEEK- and PAEK-based polymers and selected semi-finished and finished parts which shape future performance for our customers and our markets, and drive value for our shareholders.
