## FINANCE BUSINESS PARTNER

### SUMMARY

As a Finance Business Partner you would work closely with the Business Unit leadership team providing financial information and recommendations in support of business decisions to deliver growth and add value.

### JOB ROLE

As a key member of the Business Unit team you will support the development of strategy, budget and reforecasts, develop business cases to support investment decisions and provide modelling and analysis to assesses business scenarios and options. Your role is critical in ensuring that the Business Unit Leadership Team is aware of the financial consequences of all major decisions, strategic plans and commercial contracts. There is a significant level of analysis in this role, including market, performance, price and costs analysis, in order to ensure that the Business Unit is effectively positioned to respond to changing market dynamics.

### REQUIREMENTS

With, or working proactively towards, a recognized accounting qualification (ACA,CIMA,ACCA), you will have considerable demonstrable experience in the preparation of business cases, financial modelling and data analytics in support of key business decisions. Your experience will give you the commercial confidence to challenge stakeholders and your interpersonal skills will enable you to effectively build a rapport with stakeholders and influence decision making. It's critical that you are able to translate financial information for non financial managers whilst maintaining all the crucial details.

### ▶ TO APPLY

In addition to a competitive salary we also provide a range of attractive benefits, including company pension and healthcare schemes. If you believe you have the drive and potential required to join our team, please email your CV to: [HR@victrex.com](mailto:HR@victrex.com). (No Agencies)

### ABOUT VICTREX

Victrex is an innovative world leader in high-performance polymer solutions, focussed on the strategic markets of automotive, aerospace, energy (including manufacturing & engineering), electronics and medical. Every day, millions of people use products and applications, which contain our materials – from smartphones, aeroplanes and cars to oil and gas operations and medical devices. With over 35 years' experience, we develop world leading solutions in PEEK- and PAEK-based polymers and selected semi-finished and finished parts which shape future performance for our customers and our markets, and drive value for our shareholders.
